

Vannet Sat Basic 10 package

Order Vannet Sat Basic 10 package till May 31 and we will give you free double speed and double data option for six months.

Vannet Sat Basic 10 package contains data traffic limit. The 256/256 kbps guaranteed download and upload speed will remain available for you even if your data traffic surpasses the monthly limit set in the package.

If you wish to use the higher download and upload speed after you surpassed the monthly limit, you may purchase additional data traffic on a GB basis for your package. Actual fees:

- 1 GB: 1 985 Ft
- 10 GB: 16 538 Ft

Vannet Sat Basic 10 package contains a night option. It means that between 1 and 6 hours in the morning there is no data counting, any download and upload during this time period will not be deducted from the data traffic allowance. During this time period original download and upload speed is available even if you have surpassed the monthly data limit.

If you need higher speed or data limit, choose the double options of our Vannet Sat packages. You can increase twice the download speed or your data limit or you can step back to the basic package for free once in a month. You can make one change monthly via our customer office.

In our residential packages the necessary service equipment (antenna, receiver unit) are in all cases installed by our expert employees. The equipment will remain under the ownership of the provider, but the subscriber will be responsible of their protection and intended use.

The installation is fee can be paid in instalments. In case of 12 month loyalty period you have to pay 2275 Ft/month during a year.

In case of failed installation due to technological or geological conditions for the registration and the installation fee we offer 100% money-back guarantee.

For further information about our packages please contact our customer office.
